Husband of Murdered Woman and Child is Shot Dead In Duel With Pursuing Officer

[BT A. P. NIGHT WIRE] CASPER (Wyo.) March 16.—Fred Van Gorden, 42 years of age, Casper real estate and insurance agent, was shot to death in a duel with Sheriff Albert Peyton of Converse county at Douglas, Wyo., at 2:30 o'clock this morning when the officer entered a hotel, where Van Gorden had taken a room, to arrest him on suspicion of slaying his wife and 12-year-old son Arthur. The body of Mrs. Earl Van Gorden, the wife, prominent so clety woman, was found floating in Damp Bridge Creek, two miles east of Casper, at noon today. Arthur's body was recovered near the same spot tonight. He had been shot twice.

Van Gorden had become involved in financial difficulties and according to friends, was being threatened with arrest by his creditors on a charge of forgery and embezzlement.

Garbutt's Speedboat Takes Catalina Race

Four Craft in Decidedly Rough Voyage

Second Place

BY C. SIKK

The world's only ocean speed boat race, the 76-mile circumnavi gation of Catalina Island, was won yesterday by Frank A. Garbutt

yesterday by Frank & Garbutt with his Mystery VI—the wonderboat winning easily over a field of three other starters in 1 hour 51 minutes and 30 seconds.

The going yesterday was the roughest in the eight-year history of this most dangerous of all motorboat classics, huge nor westerly swells piling high on the windward side of the island and making it exceedingly dangerous business for the tiny gleed-chips. This in face of the ect that the contestants were absolutely on their own resources in case of disaster in these dangerous waters.

All of the craft crossing the starting line off Breakwater Light at 8 . m. finished in good shape, although Cecil B. de Mille and his crew aboard the tiny Defiance had a decidedly wet session. Time of the various entries and the way they finished:

Mystery VI, Frank Carbutt............. 3. 18. Matterly Strike All Frank............................... 3. 33a. Leachy Strike All Frank................................ 33a. Joe Fellows, who finished second with his Liberty evitor.

A large crowd of yachtsmen and motorboat enthusiasts was on hand to see the finish of the race, regarded as the most sporting powerboat event in the world. By his win yesterday Frank Garbutt regains possession of the Santa Catalina Perpetual Challenge Trophy, catured last year by Gar Wood with Miss Detroit.

The Mystery VI, powered with twin 425-horsepower Liberty motors, took the lead from the start tors, took the lead from the start

LA HABRA NINE SCORES TWIN VICTORY IN SINGLE CONTEST

Records have doubtless been sent in one by one to balt a heavy-hitting club, but a new heavy-hitting club, but a new stunt was pulled yesterday at La Habra when two complete teams, labeled Pirrone's All-Stars and the Fraternal Brotherhood, played in nine innings of the national pastime against the pride of La Habra and were walloped separately and combined. The home team knocked the spots off the Pirrone players, incidentally hitting Joe himself so freely that he withdrew himself from the box and his team from the field after four innings on the tailend of a lop-sided score.

The Fraternal Brotherhood then took the field against the La Habra demons, but with no better success. The combined score of the visitors was just 13 runs, while La Habra hammered out 23 during the after-

noon's peculiar festivities. Coleman, La Habra heaver, fanned 13 men, whiffing the Brother-hood and the Stars without discrimination. Packard, the Fraternal Brother-hood third sacker, was the individual hero with a homer, a triple, and two doubles to his credit.

The unusual arrangement was caused by none other than Joe Birrone, who has been batting for Jimmy Cleary as secretary of the Greater Southern California Baseball Association. He framed two games for the La Habra men through an error, but found he hadn't provided enough competition as it was.

The score:

Women Tee Off on San Diego Links This Morning

Championship of Southern California at Stake

Field of Famous Players in Battle for Crown

BY CHARLES WEST

A battle of champions opens tolay on the links of the San Diego the medal round of the annual Southern California championships for women is played. Included in a list of 150 players are such names as Miss Edith Cummings, our national champion; Miss Ma-rian Hollins, who formerly held the same title; Mrs. H. G. Hutchings of Winnipeg, recent Pacific-Northwest champion, Miss Doreen Kavanagh, California champion and Mrs. Luther Kennett, who is defending her title as Southern California champion in this tour-

To the eventual winner of the title this year will go the honor of having defeated the strongest field of feminine players ever to enter the annual event, and with any kind of luck in the draw the tournament should supply thrills in every round.

SLIGHT FAVORITES

Miss Marion Hollins and Mrs.
Hutchings are the general favorites to win the title because of
the splendid golf they have been
playing in California this winter.
Miss Hollins, in winning the Pebble
Beach championship in match play
and the Montecito Invitational
event by medal scoring, has demonstrated her all-around ability on
the links, while Mrs. Hutchings
is respected just as much for her
brilliant playing in the Mid-winter
invitational tournament at the Los
Angeles Country Club, as well as
for her rather remarkable golf
throughout the winter at Del
Monte.

However, to pick a winner from SLIGHT FAVORITES

throughout the winter at Dei Monte.

However, to pick a winner from such a field is a reckless action, and Miss Edith Cummings, although her game has not been up to her usual standard during her visit to California, is to be considered among the serious contenders for the title. Miss Kavanagh, Miss Margaret Cameron, Mrs. W. C. Van Antwerp and Miss Mary Browne are all in the running, and all are difficult to defeat when playing their best brand of, golf.

Match play starts tomorrow, ending with the finals on Friday.

\$12,000, including added money, and of this amount about \$10,000 goes to the winner.

A record crowd acclaimed the victor after a race that had all of the thrills to be expected from an event of the kind and class of the derby.

Johnny Hodge, popular golf addict of the Wilshire Country Club, yesterday made one of the most pe liar shots ever recorded in these parts. On the first fairway at Wilshire Hodge's ball was interrupted in it's line of flight by a straying sea gull, which promptly went into a nose-dive. With valor worthy of the occasion Hodge then courageously attacked the brute with the club with which he is most familiar-his niblick-which as usual, accomplished the

Hence, Hodge got a birdle with two strokes on a par-four hole. It should have been an eagle, but it was a sea gull. Figure it out!

Southern California new links are bobbing up almost daily, and the announcement of the formation of a new country club creates as little excitement as that of another bank hold-up.

However, a country club has recently been organized which promises to be an outstanding club even in Southern California, because of the natural advantages afforded by the location, because of the mammoth scale on which the organization has been outsilned, and because of the men behind it.

El Caballero Country Club will shortly make its bow. It is to be located on the estate of the late General Harrison Gray Otis on the Ventura Boulevard, which has been occupied recently by Edgar Rice Burroughs. The palatial home, surmounting a knoll in the center of the acreage, will be turned into a clubhouse. Two golf courses will be laid out on the property, while facilities for polo, swimming, tennis and kindred sports will also be furnished.

credited with driving an automobile faster than anyone else on earth, did everything but get out of his car and run after the Italian speed fiend in an attempt to lift the crown, but it was no go.

True, Haugdahl was stripped of his 180-miles-an-hour "wonder car," and denied the use of his pet Flat, and the two substitutes he used flivered. The match race between he and. De Palma was scheduled to have been run in three five-lap heats.

In the first heat, Haugdahl using Fred Lecklider's rejuvenated Duesenberg, was forced to quit when the spark plugs fouled. De Palma called it "no race," and waited while a brand-new batch of plugs were inserted, but still the Duesenberg refused to perform properly. De Palma's time for the five laps was 2.41.

ABANDONS DUESIE

ABANDONS DUESIE

In the second heat, Haugdahl abandoned the Duesie and hopped into Lecklider's new Miller mount, but it apparently lacked the speed to catch the Italian. Haugdahl took the curves like a wild man, but he had nothing og De Palma, and that gentleman left him far behind on the straightaway. Time for the second heat was 2:46. The third heat was abandoned, Haugdahl apparently satisfied that no car on the track was fast enough to keep up with De Palma's Miller.

The two heats of the match race was sandwiched in between nine other events on the racing card. Reversing last week's results, Gene Walker grabbed the helmet from Johnny Seymour in the one-lap dash, covering the course in 324-5 seconds. In the five-lap "Sunset Ramble," he duplicated the performance, nosing out Seymour and Ray Weishaar. The time was 2.47.

The crowd got a thrill in the ten-lap invitational race for automobiles, when Fred Lyon, driving No. 17 and M. Shampang bumped on the east stretch and for a second it looked like a pile-up. However, 70th drivers straightened out their badly skidding cars and continued in the race. Art Davidson won the event.

With five capable veterans Sleeman failed to stay long the gain in the fold the California score mounted till at the lunch again in the fold the California
Tech baseball team is going to
make somebody's club hustle considerably to win the 1924 Southern California conference pennant.
The Engineers have Capt Weltecamp. Fred Groat, Holly Moyse,
Larabee and Leavitt on hand, all
of whom are sweet ball players. In
addition Coach Musselman has so
much other material that he has
a hard time giving all of the athletes a good workout on the same
day.

Groat and Weltecamp formed
last year's battery and they make a
nifty pair. Groat is one of the
best fast-ball pitchers in the
league, Al Montgomery of Southern Branch being his only serious
rival. He is also a hitter of no
mean ability.

Moyse is an outfielder and
causes rival pitchers no little
worry when he comes to the plate.
Last year he hit well over the .460
mark. He is built like Babe Ruth
and bats from the left side of the
rubber. Larabee and Leavitt are
infielders, the former being a firstsacker, while Leavitt plays short.
Coach Musselman is highly enthusiastic over the large number
of athletes under his wing. The
Tech mentor has three infields
working every afternoon and none
of the regulars has a berth
cinched.

Tomorrow afternoon the Engineers will play a practice game
with the South Passdena High
School outfit. This will be the
first tilt of the season for the collegians and naturally they are anxious to make a good showing.

The following men are reporting daily: Weltecamp, Groat,

Elmer Jacobs, late of Seattle, and George Steuland, just as late of the Cubs. principals in the trade that sent Jacobs to the National League, began the tilt.

Steuland looked just as good as Jacobs until the fatal fourth, but the Seattle hitters couldn't hit the Cub pitching. Wheeler and Osborn following with plenty of stuff.

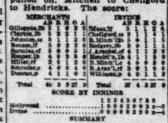

And the mighty Grover Cleveland Alexander pitched in reply to the howls of the fans to see the vet on the mound. Alexander pitched to Red Kiltefer in the ninth with two men down and without even warming up.

Red spoiled the exhibition by poking Alexander's second Sall to Adams for the final play. The cash customers went home happy and so did Alexander, his yannigans breaking even in the two-game series. The score:

Ship Line Agents Reap Rich Harvest by Scheme

(Copyright, 1924, Public Ledger.)
LONDON, March 16. — The trans-Atlantic steamship companies are playing their old game of exploiting emigrants to the United States, despite the fact that the quotas for the current year are xhausted.

The business of selling thirdclass passages goes merrily on, notwithstanding that not only was the current year's quota long since taken up, but no further immigrants can be admitted to the United States until Congress enacta an entirely new measure to take the place of the present law, which expires in June. That has not prevented the steamship lines from doing a land-office business in booking ahead and already 60,000 passages for prospective emigrants have been sold, with no sign of a let-up in the sales of tickets to the United States, which can have no value whatever until Conlass passages goes merrily on, ve no value whatever until Con-

gress acts.

The situation was explained today by an American in official life
who has had opportunities to observe the tactics of transportation companies for many years with regard to their procedure in han-dling illiterate immigrants. Many of these do not know a word of English and hand over in some in-

Then there is one more complication. The Irish Free State, exulting in youthful nationhood, is anxious to be recognized by the United States with her own separate quota. That request probably will be recognized at Washington, as it is the present American practice to grant separate quotas to ice to grant separate quotas ach of Great Britain's self-gover

Comparable in Type and Crafstmanship with Groups Priced at \$450.00

Almost invariable experience has taught that the groups of rich massiveness—with the unusual and distinctive carvings and decorative motifs are the groups that carry very high prices! That is why you expect to find a high price on this latest arrival in the dining-room department and that is why you are so completely astonished to find it \$242.50! Such elegance of detail—such appealing fineness of waxed walnut finish—such charm of design and craftsmanship!

Of course, it was simply a question of unprecedented advantage in buying—and of equal concession in setting the price for the March Events at Barker Bros. The group includes 60-inch sideboard, 6-foot extension table, 5 side chairs and arm chair with upholstered seats and panel backs.

The group made up of 10 pieces is equally spectacular in value at \$347.50.

WHERE THE LAND OWNS THE WATER AND POWER'

The real story of Stanislaus County and the opportunities it offers you to find prosperity and contentment here, are not to be found in statistics.

True, we can quote impressive figures regarding Stanislaus' crops. We can show you that last year Stanislaus produced over \$10,000,000 worth of dairy products; over \$5,000,000 worth of fruits, nuts and grapes; over \$2,000,000 worth of poultry products.

But we would rather have you see the land which produced them:—Miles of trim, heavy-laden orchards—lush pastures dotted with sleek cattle—broad fields with alfalfa piled high, and the ground almost ready for another

We can tell you about Stanislaus' water system, of which hydro-electric plant providing light and power. About the \$5,000,000 Don Pedro Dam which assures inexhaustible water supply for irrigation.

But to know what water means to Stanislaus County, you must see it, hurrying on its way to waiting rows of almond and peach and olive trees—to green fields and vineyards—to thousands of well-kept, prosperous farms.

We can tell you about the 48,000 people of Stanislaus County. People living in modern homes—contented people in touch with progress—people with money in the bank. But you can get the best story of Stanislaus County by talking to these people and seeing with your own eyes what Stanis-laus County has done for them.

So we suggest that you visit Stanislaus County. Investigate its opportunities. See for yourself the big dividends which Stanislaus pays in health, prosperity and happiness. If you want fuller information before you plan your trip, mail the coupon and we'll be glad to send you an illustrated booklet.

Do you know the answers to these questions?

What is a Trust Company? How can it serve me? When do I need Trust Services - and Why?

NE of the most important institutions of modern business-and probably the least understood-is the Trust Company. Few people are aware of how it can serve the widow, the orphan, those of small estate as well as of large, those with property to be managed or funds for safe investment, the busy business man, the corporation-in short, everybody.

The Trust Company is a public servant which acts as a responsible, capable and permanent "incorporated friend". It provides a high type of service beyond the usual limitations of individuals-service that embraces particularly, acting as executor of wills, in the administration of estates, trustee in the management of property, guardianship of minors and incompetents and the performance of other lawful trusts.

To inform the people of Los Angeles regarding these services, the leading Trust Companies, whose names appear below, will publish a series of educational advertisements in the daily newspapers of this city. These discussions will present pertinent facts regarding various trust functions and the rigid code of ethics under which they operate for the protection and advantage of those they serve.

A complete exposition of trust services will not be attempted for they are as diverse almost as human nature itself. Rather, the advertisements will outline the character of these functions and invite inquiry into the facts as applied to the reader's particular

The officers of any Trust Company named will be pleased to discuss with you confidentially, in person or by letter, the phases of trust business as touching on your plans for the benefit of your family or yourself. Consultation will incur no obligation.

Watch for these advertisements. They will appear weekly in the newspapers in accordance with the following schedule: Monday, Times; Tuesday, Herald; Wednesday, Examiner; Thursday, Express; Friday, Record.

Grip Left You a Bad Back?

> RE you getting over a cold or grip only to find yourself a victim of backache? Are you suffering headaches, too, dizzy spells, a dull, tired, worn-out feeling and annoying kidney irregularities? Then don't delay! Physicians agree that a vast number of

the worst cases of kidney trouble are the result of germ diseases. In every infectious disease the system is alive with poisonous germs and bacteria. The kidneys are often overwhelmed with the rush of the new work and fall behind in filtering the blood. Too often the real trouble is lost sight of until some dangerous kidney ailment sets in. Don't risk neglect! Help your weakened kidneys with a stimulant diuretic. Use Doan's Pills. Doan's have helped thousands. Home folks gratefully tell their experiences. Ask your neighbor!

Read How These Los Angeles Folks Found Relief:

MRS. MARY B. YOUNGMAN, 515 E. 22nd St., says: "I began to suffer with kidney trouble and as time went on my kidneys became weaker. Other symptoms quickly followed, such as nervousness and a tired feeling. I acted upon the good advice of friends and began taking Doan's Pills. I had only taken Doan's a short time when a change for the better took place. I took three boxes of Doan's in all and they benefited me to entire satisfac-

I couldn't rest at night and at times my kidneys did not act right and were free and then again sluggish. I read of Doan's Pills and used them. Soon my back was well and strong and my kidneys were in good shape.

MRS. W. M. NICHOLSON, 655 8. Briffin Ave., says: "Since childhood Griffin Ave., says: "Since childhood I have had trouble with my kidneys at times. There was a lameness across my back and when I stooped to lift anything the strength fled from my back. Dizzy spells were trouble-some and it was impossible to see until the specks ceased to pass before me. The inactiveness of my kidneys was the worst trouble. I started taking Doan's Pills and they rid me of the backache and other symptems."

Father Says Boy Tractable When Better Self

NEW YORK, March 16.—Walfrid Liliback, 19 years of age, choir later, was arrested and held in connection with ten recent hold-ups, which, according to police, the youths staged with companions. Arrested with him were Harold Williamson, 18, of 2518 Avenue R. and August Hendrickson, 17, of 1141 Thirty-ninth street. Hendrickson, police say, admitted being with Lillback in ten hold-ups; Williamson would admit only two. Young Lillback is a son of Rey, J. E. Lillback, pastor of the Finnish-Golgotha church, Forty-fourth street and Eighth avenue. He and the other prisoners looked like high school pupils when they were arraigned before Magistrate Brown in Fifth Avenue Court. Yet the police say Lillback and Hendrickson pulled four hold-ups within an hour, getting \$167 and two watches, then picking up Williamson at a dance hall and going south in a stolen automobile to elude the police.

nounced the discovery of a new alloy metal to take the place of steel.

The organization was perfected twelve years ago to encourage inventors and assist in introducing patents. It now is serving, Dr. Hammeeschiag said, as a recognized link between inventors, manufacturers and the government.

In explanation of the new alloy discovery, he said:

"We are on the threshold of an era of changes in the great field of metallurgy. Steel has ruled king of industry. Its position is being threatened by those who have been pioneering in the fields of the alloys. The inventor who can produce a new metal, with the strength of steel, noncorrosive, lighter in weight, already is on the horizon."

It's good to be home again." Mrs. Wo. Willison sighed as her husband unlocked the front door of their home at 1518 Juneway Terrace. "Now for a little real comfort." Now for a little real comfort. The door swung open, Mr. Willison fiashed on the light and his liscovery, he said:

When he finished counting his losses for the police, Mr. Willison figured himself out a good van load of plunder worth \$4000. Neighbors recalled seeing men with fashlights in the Willison yard a few nights ago.

While they were south they pulled Jobs in Richmond and Baltimore, the police say, and were arrested at Laurel, Md. on a traffic charge and fined \$30. Then they came back home, to find the detective waiting for them.

Lillback was arrested at his home by three detectives, who said he started to pull a gun on them when they surprised him in bed. He and the other two were specifically charged with holding up Mrs. Hilds Luons of 4415 Eighth avenue, Bay Ridge, and robbing her of \$80.

Lillback freely admitted his connection with the chain of holdups, the detectives said, and declared he didn't know what made him do these things, except that "spells" seemed to come over him when he couldn't stay straight.

SCHICK CASE UP IN COURT

Everett Drew Clark, Accused Murderer of San Diego Man and Love Pirate, Faces Fight for Life

[EXCLUSIVE DISPATCH]

[EXCLUSIVE DISPATCH]

SAN DIEGO, March 15.—Everett Drew Clark, charged with the murder of George E. Schick, missing San Diego realty broker, will go on trial for his life tomorrow in Superior Court here. Few, if any murder trials here, not excepting the famous Jacobs trial of last year, have attracted the public interest which attaches to the case against Clark. Mystery, romance, conspiracy, admitted infidelity and the breaking up of a home, are among the elements which have focused the public eye upon Clark. The disappearance of Schick, from whom not a word has been heard for more than a year, and absence of any logical reason why he should vanish of his own accord, have whetted the public's desire to learn the facts in the puszling case.

wared February 7, 1913, after hich time Clark, although marbick home and practically behick to be the ones who urged the forging.

CLIMAX COMES

The climax came when John V. Hendrix, convicted of murdering like said. Suspicion first was mused that all was not well with lack when his brother, Martin, m Ohio, came to San Diego and an investigation. Clark was steed in the so-called "love" in El Cajon. Mrs. Clark and Schick also were taken into ody.

WOMAN AWAITS TRIAL

The clarks were implicated, and, in fact, were declared by Mrs. Schick to be the ones who urged the forging.

CLIMAX COMES

The climax came when John V. Hendrix, convicted of murdering his partner in "moonshine" activities in their lonely mountain home, since condemned to be hung for his crime, told the District Attorney's office that Clark, following his arrest and detention in the Schick also were taken into ody.

The store in which the yegs worked is within one block of the police station and but three doors from the Santa Barbara Press office where the night staff was at work on the Sunday morning paper. Twenty-five blankets were used by the robbers and the safe was completely covered so that the noise of the explosion was not heard at any place in the block. Police are of the opinion that the robbers used a pass-key and locked the door after they had completed looting the safe. They left no clews. The officers are convinced it was the work of professionals.

Growth

TWENTY years ago, the little factory pictured above was founded upon the sound principle that building products conscientiously made, honestly labeled, and fairly priced, would meet with ready acceptance. Millions of careful buyers, recognizing this sound principle have caused the Certain-teed growth from the small beginning to a city of plants producing more than a hundred different products.

Not only do these plants supply the world with finished products of quality, but they also draw upon the entire world for raw materials. Wherever Nature produces them in their finest form, there Certainteed gathers its supply.

With a corps of efficient workers operating modern machinery, Certain-teed converts these materials into finished products, on the most economical basis.

With one management, one overhead, one sales organization, making and selling a varied line of products, substantial savings are effected, both in manufacture and distribution. You benefit by these savings when you make the Certain-teed Label your guide in buying.

FOREIGN MOVEMENT This foreign movement is ratherer perplexing particularly in view of the fact that our major farm worry recently has been finding a market outlet for a wheat surplus that has been extravagantly measured. Liverpool is becoming somewhat disturbed over the movement of unsual quantities of wheat to non-European countries. Buyers representing that market have been studying the figures as to the carry-over of grain in all positions in this country and seem inclined to take advantage of every bearish tendency in the market.

The Chicago Board of Trade has been under a cloud for several years and its prospects have been particularly uncertain since the organization of the wheat council and the national advertising done in behalf of distress in the northwest. End of the week events are more encouraging to the exchange than anything that has happened in the last two years. These seem to suggest that there is at least a possibility of the exchange regaining the position it once held in the business organization of the Middle West. This foreign movement is rath

The Standard Oil Company of Louisiana has renewed for 1924 its contract with the Midwest Refining Company (Standard of Indiana) for 100,000,000 gallons of gasoline for export to the Anglo-American Oil Company (Standard of New Jersey,) Great Britain. This contract started in 1922 and since that time 7,800,000 gallons monthly leave Casper, Wyo., for Baton to tankers.

The mechanical trouble which developed during a cementing job has been entirely eliminated. Outside of Kern county, investors are watching the district and many leases have been made on property surrounding the well. The Main Oil Company holds more than 2000 acres.

Signal Hill Oil | CRUDE OIL Field Has Drop in Production

By a "Times" Staff Correspondent LONG BEACH, March 16.—With only one well completed in the field only one well completed in the netal last week ending yesterday, and with the total dally production figure dropping down to about 214,006 barrels, the Signal Hill field experienced its most inactive week since last summer. This is a drop, according to the best esti-mates available in the field, from about 225,000 barrels average daily production about four weeks

about 278,000 barrels average daily production about four weeks, ago.

The one new producer of the week, Laddie Boy No. 2, located west of American avenue, near Center street, was finished Tuesday as a 500-barrel well, but is said to be doing close to 800 barrels aday. The well was drilled to 3885 feet.

A large number of wells are preparing for production in various sections of the field and confidence was expressed yesterday that the forthcoming week would see several new producers doing their share to lift the daily production total up to where it was a short time ago.

With seven new wells staked out on Reservoir Hill and two others to follow later, it was revealed yesterday that more than one-third of the two dozen new wells to be drilled this year by the W. R. Ramsey interests will be located on eity-owned property. Successful producers would greatly increase the oil royalties that the city of Long Beach is enjoying from the Signal Hill field.

FIRST GRANDCHILDREN ARRIVE ON SAME DAY

HANFORD, March 16.—Becoming grandparents to two children, a boy and a girl, in a single day, a an unusually happy experience for any couple. Mr. and Mrs. David Davies came to this country from England and became residents of Hanford with many other English people when Hanford was little more than a village. The couple have a large family of sons and daughters, but the new arrivals of the Davies clan are their first grandchildren. Mrs. Ernest Davies, nee Sybil Blakeley, gave birth to a 6 1-2 pound son and the same day Mrs. Milliam Smailey, nee Dalsy Davies, gave birth to a 5 1-2-pound daughter, both births occurring in Hanford.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive tablets while treating patients for chronic constipation and terpid

livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a duil, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant, results from one or two of Dr. Edwards' Olive Tablets at bedding.

and to take one or more books home each week. Here Carnesie conceived the idea of the possibilities for adult education.

He attributed much of his success in life to the use of this ilbrary; and when he had acquired a fortune he desired to give as many of the youth of the rising generation as possible equal opportunities for self-help.

TOUCH OF GOLD

One by one the other activities grew. The Carnegie mills made implements of war; but Carnegie regarded war itself as a remnant of barbarism; and he established the Carnegie endowment for international peace.

He found the educators of his generation poorly paid, that the wolf of poverty followed thour heels through their active years, and usually caught up with them when their step and their brain were retarded by advancing years. Then came the creation of the Carnegie pension fund for college professors.

An instance of the heroic risk of one's life to save that of another wholly unknown to the rescuer came under his personal observation. The result was the endowment of the Carnegie hero fund. Destiny is not always blind. Possibly the most remarkable part of Andrew Carnegies life was that whatever he touched seemed to turn into gold. He was giving away tens of millions; but the value of his investments was increasing so rapidly that his fortune during his lifetime for the bengit of his fellows.

There are other millions in reserve to be contributed for medical research. In some of these the Rockefeller and Carnegie trusts are co-operating.

As I listened to this narrative, as fascinating in parts as a tale from the Arabian Nights, my thought kept recurring to the contract between the use that Andrew Carnegie had made of his money and that of some other men of great wealth, as disclosed by the investigations now taking place at Washington.

the investigations now taking place at Washington.

Carnegie knew life, and knew men; and he knew how to keep his money out of politics and the hands of politicians.

He used his money as I imagine Lincoln would have sought to use it had destiny marked him for a great leader of industry instead of a great stateman.

The line of Longtellow beginning "Lives of Great Men" seemed strikingly appropriate to the present moment.

Dr. Keppel digressed from the Carnegie Corporation to speak of the carnegie Endowment, under the direction of Henry I. Pritchett. He said the library contributions alone had amounted to \$45,000,000.

"Feels like summer," said Dr. Keppel as he moved his chair. "It is too glorious to be inside. I have been traveling for a week in the train and I feel like taking a plunge in the ocean."

I suggested Venice and offered to act as the guide. He acquiesced readily and we were soon speeding along the Venice Short Line through the western suburbs.

I wanted to talk more about the corporation and the foundations; but he said it was his turn to play the part of inquisitor and began to ask me about Los Angeles. He was interested in our cultural life, in our museums, conservatories.

During the last ten years the activities of the Carnegle Corporation have been directed toward medical research. It was the first to give an endowment for the development of the new and only successful treatment for diabetes—insulin.

For Dairying: Prices are right; market conditions are right; a transportation system is provided

Land Suitable for Dairying is Very Reasonably Priced

OU WILL BE SURPRISED at the prices asked for Riverside county land suitable for dairying; they are generally lower than prevail for land of equal worth. Cost of feed is lower than in many localities, too; for this is an alfalfa growing section.

Riverside dairymen are fortunate, not only in having ideal climatic conditions; but also because of right prices, right market conditions and the fact that a highly efficient system of transportation has been developed. Huge trucks take Riverside county dairy products twice daily direct to the Los Angeles market. And there is a local firm which is equipped to absorb a large amount of Riverside milk.

Growth of the dairy industry in Riverside county is shown by figures for dairy products marketed---zero in 1917, nearly \$1,000,000 last year. Yet the field here is not overcrowded; there is still splendid opportunity for success.

Communication with this office secures co-operation and suggestions.

Ramon Cruz, asserted counterester, expected a setback yesserday when neighbors at the supposed actress's address here said a middle-aged Englishman was the only one living there recently with a similar name.

The difference is that the Englishman's name was Albert De Winton Jones, while the letter said to have been found by Chicago detectives in Cruz's headquarters was from Alberta De Winton Jones. From the context of this letter, detectives were led to believe that the writer was a motion-picture actress with whom Cruz was planning to make pictures in Mexico.

No Alberta De Winton Jones has lived at 336 East Sixth street here, according to neighbors, but the Albert De Winton Jones hived in the rear of \$34 East Sixth street here, according to neighbors, but the albert De Winton Jones lived in the rear of \$34 East Sixth street here, according to neighbors, but the moved without leaving a forwarding address.

Cruz has confessed, detectives say, that it was his intention to go to Mexico to pass \$1,000,000 worth of bogus \$20 gold certificates that had been raised from \$1 bills previously bleached of their color. Several hundred of the bleached bills were found at Cruz's headquarters in Chicago, according to police.

D URING the present year the shoe-for-the-occasion idea has gained considerable impetus. Today the shoe has become a very decided style adjunct. This was not nearly so much the case twenty years ago when the shoe was regarded more as a strictly practical proper. more as a strictly practical proposition. Now there are shoe styles that closely harmonize with the various changes of cos-tume throughout the day.

Fashionable women regard their footdress of paramount importance. The frequent change provides not only physical re-freshment to the foot, a pleasare sament to the foot, a pleas-ing effect to the eye, but oper-ates as an economy as well. The short period of wear relieves the shoe of strain, keeps it fresh and prolongs its life. makes international diplomacy on the Pacific a subject of fiction.

A brand new method of obtaining a wife was introduced to him yesterday. A method that is safe, painless and efficient, a method that prevents interference. And it was introduced to him by Ray K. Minoki.

Presuming that Ray Minoki had cast longing and covetous eyes upon his neighbor's wife, the accomplishment of his desires would mean to the occidental mind a lawsuit or a shooting or even a fistic fray. But to the oriental mind of Ray Minoki more subtle methods were presented. The one he chose, according to Justice Baird, eliminated all the more troublesome details of lawsuits, guns and battle.

Wise Minoki simply placed his rival in jail for a few weeks. And

Federal Agents Report Slow But Sure Progress Against Illicit Trade in Los Angeles

Gradually the volume of illicit narcotic trade in Los Angeles is becoming less, according to V. H. DeSpain, Federal narcotic agent. responsible for the improved situation in the opinion of DeSpain. Narcotic agents accept the peddler's prices on morphine, cocaine and heroin as a trustworthy indication of the trend of the illicit business that has for its victims the "dope fiends." A year ago, for instance, morphine in single ounces, and in quantities of five or more ounces, as low as \$155 an ounce. Now a single ounce of morphine brings around \$125 while in lots of five or more ounces it does not drop below \$75 an ounce.

Prices on cocains and heroin have not fluctuated in the last twelve months. Both are selling in the neighborhood of \$125 an ounce for single ounces, and at about \$15 an ounce in lots of five or more ounces. The law of supply and demand keeps the prices of cocaine and heroin more stable than the prices on morphine, which is the drug most generally used.

"We have not stopped the illicit sale of narcotics but we are steadily getting ahead of the game in this territory." Agent DeSpain sagone up because of the increasing difficulty in obtaining that drug, addicts are not seen so often on the streets now as they were a year ago. Most of those we do find are sick as a result of their inability to obtain their drugs.

"It is becoming increasingly difficult for us to apprehend peddiers because we have a far shrewder customer to deal with than we had a year or so ago. The old-time peddier, who generally was himself an addict and who sold his stuff wherever he could

Bureau Chagrined Over Many Issues Submitted for May Vote as Campaign Nears

With the calling together next Friday of the members of the Citizens Committee of Ten Thousand to lay plans for the campaign preceding the May 6 election, attention has been directed to the quests for bond issues totaling in excess of \$137,000,000 which are to be asked for from the voters during the next six months. There are now scheduled for May 6 ballot thirteen municipal and county propositions and bond issues, as follows:

(1.) New city charter. (2.) Alternative provision for COURT WILL district representation in the Council instead of Councilmen HEAR PLEAS elected from the city at large, as

(3.) Referendum on truck load limit ordinance adopted by the Council, which increased the maximum truck load limit in Los Angeles from 24,000 pounds to 26,000

GAS GRAB TO VOTE
(4.) \$8,000,000 water bond is-

(6.) \$1,600,000 police bond issue.

(7.) \$600,000 bond issue for incinerators to dispose of combustible rubbish.

(8.) Referendum on Power Bureau's "gas grab" ordinance authorizing expenditure of \$45,000 as first step in condemning \$17,000,000 electric properties of Los Angeles Gas and Electric Corporation.

(9.) Referendum on Power Bureau's "gas grab" ordinance authorizing expenditure of \$5000 to pay bills aiready incurred toward condemning gas company's electric properties.

This makes a total of probable bond issues on the May 6 ballot of \$89,200,000 with possibly others to come, and then there will be presented to the voters in June as school bond issue of \$37,500,000.

It is known that the Power Bureau is very much chagrined over the flock of bond issues to be presented to the voters on May 6 as well as the school bonds in June. The bureau had hoped for clear salling on a lonely power bond issue, which would be a resubmission of the \$35,000,000 power bond issue defeated last June. Dr. John R. Haynes and W. B. Details regarding the asserted operations of what is said by deputy sheriffs to be a large automobile theft ring will be placed before the county grand jury tomorrow. It was stated yesterday by Deputy Sheriff Bispham, head of the automobile theft bureau of the Sheriff's office.

Thieves, say the deputica, are using a clever scheme to have the stolen cars legally registered with the State. During a fire at Ventura in the plant of the Priest Auto Company, about sixty automobiles were burned, it was stated FORTY CARS SAVED

From this lot, the West American Insurance Company, which paid, a loss of \$10,000, salvaged some forty Ford cars, it was said, and the chassis in many instances were left. These were shipped to Los Angeles and sold as salvage.

Each chassis carried with it a license plate and certificate of registration.

According to deputies a large number of Ford coupes have been and the bediese put on the registered blocks, thus permitting reregistration with the Motor Vehicle Department, Efforts are now being made by the officers to find owners of such cars which have been stolen within the last few months.

He said in part:

"The people of today are fast
getting out of the fog and away
from the creeds of the dark ages.
The wbrid was full of hobgoblins,
spooks and superstitions. In this
day we want a reason, a scriptural answer and not a statement
of a priest or a mons. When
they burned one another at the
stake, it was easy to teach the
people that the burning did not
stop at death, but continued on
through the ages of eternity. The
word 'hell' was used to convey
this meaning when in reality the

In the fall of the year they will
'hell' the potatoes or apples—dig
a hole in the ground and cover
them over. Do the apples or potatoes come back from hell? In
the winter time they are dug up
and eaten. This is a very striking
picture of the people of earth
going into the pit, grave, hell, and
in the ressurrection coming back.
All the dead—good, bad and indifferent—have gone to hell, resting, sieeping, waiting for their
change to come. This explanation gives us a real live hope of
the ressurrection that Jesus
taught."

Dangerous for Him to be Out In cutting some tough knots Raymond Smith's ax glanced and cut a gash in his head. After the wound had been bandaged he went into the barn broke his collar bone. That broke his collar bone. That fixed, to solace himself Smith lighted a cigar and a hot ash set fire to the bandage. Strugging to extinguish the fire, the broken collar bone was wrenched out of place and Smith's face was burned. Now they have him in a hospital at Port Allegheny, Pa., for safe keeping.
